## MADE A DEFENDANT.

Senator Williams Drawn Further Into the Mining Suit.

Special to "Appeal." SAN FRANCISCO, Dec. 2.—Very little of importance was elicited in the Hale & Norcross suit today.

Williams continued his testimony. He said the expense of working the tailings was charged to the mills.

Ore taken to the Nevada Mill is not weighed; there are no scales at the mills. He stated that an agreement as to weight per car of ore was made by predecessors; a car contained 7½ tons of ore. The mill pays the cost of transportation. The witness then explained that there was a small return of bullion in March, 1890, when it was 35 per cent., as against the 8½ per cent. the following month; said Bullion left in the pans in March swelled returns in April. The per cent. both months was actually seventy four per cent. The capacity of the Nevada mill is 230 tons of ore per day.

LATER—Williams has been served with summons showing that he is a representative of the Nevada Mill and Mining Company and is a party defendant to the suit. This is the first time that the Nevada Mill and Mining Company has been expressly made a defendant in the action.

Alvina Hayward, W. S. Hobbart and Evan Williams as owners of the mill are now the principal defendants.

## Broke Her Leg.

The little dark bay mare, Nellie, belonging to Matt Brannan, fell in front of the Opera House yesterday and fractured the knee joint of her left foreleg.

Matt was considerably affected at her misfortune, and fondled and rubbed the broken limb as the tears welled in his eyes. Nellie has been his property some time and was broken under his own hand; gentle enough for a woman, but full of life. She bent her head down in a comprehending way, and Matt threatened to shoot her, that she might not suffer, but he was dissuaded from this, and bandages and splinters will be used in the hope that the limb may be saved.

## There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely in your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and feel confident that the result will be a mutual benefit.
